Our vision, values and practice below seek to articulate why and how
Thus, we offer a perspective on creative placemaking and community
histories, and hope and opportunity for our future generations. We
are truly centering in this work are our people, our cultures, our
opportunity (eg — revitalizing traditional practices). While the AAPI
significant challenges (eg — commodification of culture,
Over the course of our work, our organizations have experienced
economic development, and solving place-based challenges.
Our approaches have positioned the arts and cultural traditions
hold social, spiritual, cultural, political and economic importance.
We are organizations committed to the equitable development
beloved community2 within Asian American
communities, our strategies may look different in different places and contexts.
We are part of an intersectional movement for equity.
We are committed to centering and elevating voices of BIPOC communities
of the community.
Belonging and Dis-belonging
have evolved. We acknowledge our collective experiences in the past and present,
attained when decisions are driven by and for community members themselves.
We are part of an intersectional movement for equity.
We are part of an intersectional movement for equity.
Our community members experience the impacts of outside forces, such as red lining, interment, alien exclusion acts, and
social and cultural hub in the face of race, class, poverty and discrimination. The communities
have been a gateway to opportunity and well-being, an economic,
populations that have for centuries guarded sacred lands to waves of settlers
We have a responsibility to place.
We are committed to building trust and relationships with others who are affected by our work.
